Speakers' Profile 講者簡介

Mr Leo Chiu, Columnist, HK Economic Times iMoney

Leo is a hands-on practitioner, and a tech-savvy entrepreneur. After completing secondary education in Hong Kong, Leo fought his way into Stanford University, graduating with a M.S. degree in Management Science and Technology (Operations Research & Engineering Economics), one of the specialized fields out of the STEM discipline.

After graduation, Leo was recruited into Morgan Stanley New York office. Finding out wall street is not his cup of tea, Leo came back to Silicon Valley and started his STEM career.

The last 4 big data/AI startups Leo served as core contributor all lead to successful IPO or M&A, with a combined market valuation of over US$1B.

Leo is currently mentoring the youths and young adults in Hong Kong about innovation driven entrepreneurship via the mainstream media as columnist and blogger. He is the Honorary Advisor for the B4B Challenge.

Mr Johnson Yim, CEO, E-Business Solutions Limited

Mr. Johnson Yim is the CEO of the E-Business Solutions Limited (EBSL). EBSL is a local software technology company specializes in IoT and Mobility solutions. Johnson is a veteran information technology specialist who has rich practical experience in technology development from idea generation, research & development to real-life implementation. Johnson has over 20 years of solid experience in technology transfer, product development, project management and system development. He and his team have successfully applied IoT technology in a board spectrum of application areas including facility and asset management, mobile workforce management, supply chain management, cold chain management, vehicle tracking, passenger baggage tracking, library management, corpse management, etc.

The 4 Winning Teams of B4B Challenge

Together with Cyberport, Innobator organised B4B Challenge 2016 which is a contest that promotes the development of a healthy and sustainable ecosystem for Big Data innovation in Hong Kong and to match talents and enterprises with an intensive accelerator program. The objective of B4B Challenge is to provide a platform that connects Big Data demand – innovative information solutions, and supply – talents in Hong Kong, to accelerate pervasive Big Data adoption and improved maturity as the foundation for Hong Kong to become a reliable, high-quality and sustainable source of digital innovations in the Asia-Pacific region. Visit www.b4bchallenge.com for more information.
